

GOOD OLD MEADE.

Seems to Have His Share of Tax Dodgers.

What a Contributor Has to Say on the Subject.

EDITOR OF THE NEWS:—It may be a surprise to your readers to know that the good people of the county are short in the listing of property in the sum of \$107,148.

The members of the board of supervisors worked hard while in session, but the fact that they had not sufficient time allotted them, prevented them from doing their whole duty. Had they a longer session they would undoubtedly have found that the people of Meade county were remiss in their duty in a sum probably three or four times as great as is mentioned above.

They should have had ample time to go over all the lists in the county and see that a just and fair return of taxable values was made.

The lands of the county, as a whole, are not listed according to the law. The values placed on cattle are only about 50 per cent of what the law requires; hogs are listed in any manner that suits the person making the return, but horses and mules, the most undesirable stock on the farm, are listed under the standard and than anything else.

Of course, horses and mules are a necessity on the farm, but they are the only stock that a farmer raises and does not value sufficient to represent the cost of raising. It is up to be sold for cash they would not near help to pay the cost of raising as sheep, cattle and hogs.

I understand that the average price of cattle in Meade county, big little, old and young, will range in the neighborhood of \$10 and \$12 per head. Indeed, I will venture to say that a man cannot go through the county to-day and buy all the calves within his borders at the average price of \$10 per head. The older animals would cost him double and treble that amount.

As to personal notes and mortgages the assessors' books would lead one to believe that very few property in Meade county own any. A case was made in the county records, however, would tell a different tale.

Personally secured notes seem as scarce as hen teeth and what few do appear are valued very low by their holders. I understand that mortgaged notes are valued at about 40 cents on the dollar while the personal notes are returned at 10 or 15 cents on the dollar. That is the way they are listed by the holders. Running accounts are valued almost entirely.

It is my understanding that the people of Meade county have about \$22,000 stuck down in the pockets of their jeans. The records show that they have only \$15,224 deposited in the bank, according to the assessors' reports they have ready cash to the amount of \$38,000.

While the record shows that there is only \$15,224 in bank, that institution itself, in its last annual or semi-annual report, says that there is something about \$47,000 on deposit, and our border bank, which is located at Vine Grove, has in its vaults something about \$10,000.

I have heard it said by good authority that the Vine Grove bank credits Meade county with about half her deposits, which would make a difference.

I believe that there is something like \$40,750 deposited in the banks over and above what is listed for taxes. The bank statements were made Jan. 1st, 1899, while the tax list is recorded from the 15th of September, 1898.

If the above statements can be borne out I should think that a careful recording of the assessable property of old Meade would bring her out from the cloud of being classed with the pauper counties.

She is capable of a high standard of self-maintenance and ought to occupy her rightful place.

OVERSEER.

Got a Good Price.

A. B. Skillman, cashier of the Breckenridge bank, was one of the fortunate individuals to profit by the recent sharp rise in wheat. He sold 1,200 bushels of the cereal Saturday for 90 cents per bushel.

Poor and Weak.

Catarrh and Bronchial Trouble—Had no Appetite—Now Better in Every Way—A Delicate Child.

"Some time since I took a sudden cold and could not get rid of it. Being subject to catarrh and bronchial trouble I coughed terribly. I lost my appetite and grew poor and weak and soon felt more like work. I began taking Hood's Sarsaparilla. In a short time the cough disappeared, I slept well, had a good appetite and I was better every day. Last spring I was not feeling well, I had no appetite and no strength. I resorted to Hood's Sarsaparilla and soon felt more like work. My little nephew was a delicate child and had a humor which troubled him so he could not sleep. He has taken a few bottles of Hood's Sarsaparilla and now he has a good appetite and is able to sleep."

AN ARTISTIC SUCCESS.

Rev. McDonald's Reading Highly Enjoyed.

A huddle of folks spent a cozy hour or two at the Presbyterian Kirk Friday night listening to Dr. Donald McDonald read in the free tongue, from MacArthur's "Beside the Bonnie Brigs Bush." The time flew by 'till tenfold head as the dome of the people of Drumschick.

Rev. McDonald is a Scot himself and possesses a voice that charms the ear. He reads with such tenderness and sympathy that the living pictures of Dr. McArthur and Fionn Campbell are presented to the mind's eye.

His reading of the death of Dr. McArthur was artistic. His interpretation of the scene was so realistic, so tender, so sympathetic that it brought tears to the eyes of many of the audience. The reading was certainly an artistic success and the audience was much gratified to see themselves on having enjoyed a rare treat.

DIED OF APPOPLEXY.

Sudden Death of Mrs. O'Brien Shocks Her Friends.

Her End Came at Her Home Saturday Evening.

The friends of Mrs. J. W. O'Brien were greatly shocked at her sudden death which resulted from apoplexy at her home Saturday evening.

The deceased was the daughter of the late Ervin Beaven, who came to this city from Lohrsville county.

Mrs. O'Brien was apparently in the best of health on the day of her demise. She was a true, Christian woman, big-hearted and generous to a fault. She was a devoted member of St. Rose's Catholic church. Her funeral took place Sunday and her remains were laid to rest in St. Ronald cemetery, Hardinsburg.

TOBACCO SALES.

Burley is Bringing Good Prices in Louisville.

Stark Hays, of Harrell, sold three hogheads of burley at Louisville, at \$12, 75 and 10. The sale averaged \$8 per hundred.

George Lucas, of Custer, sold three hogheads of burley at Louisville for \$10, 40 and \$10.

F. M. Rogers, of Rosetta, sold two hogheads of burley at Louisville for \$10, 25 and \$10.

Minor Compton and Jasper Housley sold five hogheads of burley at Louisville last week at \$8, 50, 7, 50, 5, 50, 4, 50, and 3, 50.

Bad Carman, of Garfield, sold three hogheads of burley at Louisville for \$7, 00, 4, 50, and 4, 50.

Taylor Dwell and H. W. Gross were in Louisville Monday selling tobacco. Mr. Dwell sold 3 hds and Mr. Gross 2 hds of white burley.

AN OLD RIVER MAN PASSES AWAY.

Captain John A. Adams Dies at His Home in Liverpool.

Captain John A. Adams, for many years one of the best known river men in this section of the Ohio, died at his home at Lawpsport Sunday evening.

Captain Adams began in the steamboat business in the early 70's and his first venture was with the Patrol No. 2 in the Cincinnati and Evansville trade, with which he was quite successful.

The other boats he operated were as follows: Pine Bluff, Mary Ament, Dick Johnson, Clara Cahier, Two States and Edna Adams. The latter boat was named for his blind daughter.

About ten years ago Captain Adams retired from the river trade and lived on his farm near Liverpool. He was a man of high principle and fine character and he is sincerely mourned by all who knew him.

Sanders—Brickley.

On last Thursday evening, at the home of the bride, Owen Sanders was united in marriage to Miss Alice Brickley. The ceremony was performed by Rev. Westphal.

The groom is one of the best known young farmers in this vicinity, and is highly respected. The bride is the daughter of Mr. and Mrs. T. M. Brickley, and is a grand-daughter of Postmaster James Wilson.

Does Fine Embroidery.

Mrs. John W. Raitt, of this city, is one of the most accomplished needlewomen in Breckenridge county. Although she is seventy-seven years of age she can today draw as fine stitches and finish as difficult designs in embroidery as the most artistic of the younger matrons in this vicinity.

ACTIVITY IN REALTY.

Real Estate Changing Hands in the County.

Some Fine Sales Were Made Last Week.

That property has struck the land is demonstrated by the fact that there is an increased demand for good farm property in the county.

Some very extensive transactions have taken place on the county since the first of the year but last week was the most active of all.

James A. Winn sold to Dr. J. V. Shacklett 71 acres of land for \$2,000. The property is located near Ekron and Dr. Shacklett can congratulate himself on his bargain.

M. G. Lawson sold his place near Lexington to Thomas Harrell. The property consisted of 91 acres of land and brought \$1,500. Mr. Lawson purchased 140 acres of land from John Handy, near Big Springs, for \$1,000 and he also purchased 40 acres adjoining from J. A. Witt for \$250.

David Moorman sold to Julian Brown 10 acres of orchard near Glendale for \$55 a acre. He also sold 5 acres for \$60 a acre to the same party. The latter tract contains a beautiful site for a house and Mr. Brown contemplates building a nice cottage thereon.

Paul Perry, of Columbus, Ga., suffered ague for thirty years, and then cured by the use of Dr. J. C. Williams' Pink Pills. It healed injuries and skin diseases like measles—Short & Haynes.

GREAT REVIVAL.

HARDINSBURG, January 31st, 1899.—The most interesting revival of religion this town has had for twenty years or more has been going on in the city hall for the past three weeks. There has been over fifty conversions, besides a number of persons who had become cold in the matter of church matters and were reclaimed and brought back into the fold.

Rev. J. W. Biggam, pastor of the M. E. church south, has been doing the most of the work, and is being aided by the Rev. J. C. Williams, of the M. E. church north. Both of them have labored hard and the results have been more genuine than was expected. The whole country about here has been aroused. Old men and young men have come out on the Lord's side. The Sunday schools, and prayer meetings have increased double almost by the number of attendees, and a genuine good feeling seems to be abroad in the land.

A WILLOW FENCE.

Will Save the Lower River Bank and Wharf.

Manager Harris, of the Breckenridge Canal Company, has had a survey made to construct a fence to preserve the river bank fronting the company's property in the lower end of town.

The fence cost about \$100 and is several hundred feet in length. It was constructed by the recent high water, but the enormous quantity of drift that settled against it and that was deposited in the middle of the wharf did scarcely any damage. New ground is being made and the embankment is being reclaimed.

BROKE THE RECORD.

Eugene Vest Catches The Largest Fish of the Season.

'Gene Vest is enjoying himself immensely catching fish, killing mosquitoes and bagging alligator skins in Florida. Writing to his brother, John Vest, he says that the weather is quite cool at Melbourne, Florida, where he is, the temperature being about 60 degrees.

He says he went fishing in the Indian river the other day and caught seven bass, the largest weighing eight pounds, the record breaker of the season.

Not long ago 'Gene went out on the salt water to fish for sea bass. He managed to get a strike and soon had a sea bass hooked that weighed twenty pounds.

He says he was about to land him when the tackle broke and the fish left that immediate vicinity in haste.

How did 'Gene know the fish weighed 20 pounds?

He saw the scales.

SHERMAN HONORED.

W. H. Bowmer's Son-in-Law Gets a Fine Appointment.

Toledo, Ohio, is to have the Ohio centennial, and great preparations are being made to make it the greatest event in the United States in 1903.

An expert commission has been appointed to take charge of matters pertaining to the centennial, and W. J. Sherman has been appointed civil engineer by the city of Toledo.

He will pass upon all the great engineering problems that will be presented, and it is felt a great honor that has been conferred upon him.

He married Katherine, the daughter of Mr. and Mrs. W. H. Bowmer, of this city, and his Cloverport friends are highly elated over his success.

The Toledo Blade says of him: "Mr. W. J. Sherman, civil engineer, selected by the Toledo centennial commission as the expert on grounds, is one of the rising engineers of the city. His experience as an engineer has been varied. For years he was chief engineer of the Wheeling and Lake Erie railway, and served in connection with other railways. He made the preliminary surveys of the park, prepared the topographic and hydrographic maps, and has handled the expert affairs of the commission since its organization."

HARRY MORDEE RESIGNS.

One of Louisville's Most Popular Railroad Men.

H. C. Mordee, who for the past ten years has been assistant general passenger agent of the Louisville, Henderson & St. Louis railroad, has resigned and will go to Chicago to engage in the coal business with his brother.

Mr. Mordee, while connected with the road made an army of friends. He is a courteous, whole-souled gentleman whose good qualities of head and heart will win him success wherever he goes.

He will be greatly missed and all who are fortunate enough to know him will miss him a long, happy and prosperous career.

A Sad Misalliance.

Mrs. Nancy J. Townsend, a most estimable woman, died at her home on New Albany, last Sunday morning, after a protracted illness. Her sister, Mrs. M. W. Mitchell, of this city, was summoned to the bedside of the deceased last Wednesday and remained with her until her death.

The sympathies of the community are with Mrs. Mitchell in her bereavement.

WORDS OF PRAISE.

President McKinley Brags on the Fourth Kentucky.

Brigadier General Speaks Highly of the Regiment.

The public may know how the Fourth Regiment of Kentucky is esteemed by the officers under whom it has been and generally commended the following letters received at headquarters are reproduced:

Headquarters First Brigade, Second Division, Fourth A. C. Camp Shipps, Anniston, Ala., January 29, 1899.

Lieut.-Col. Murray, Commanding Fourth Kentucky Vols.

DEAR SIR:—I desire to express to yourself and the Fourth Kentucky Brigade my great appreciation for your cooperation in your approaching disbandment. Both yourself, as much of the time in command and Col. Colman have labored hard, and shown such soldierly aptitudes in bringing your regiment to its present excellent state of training and discipline that I feel that an expression of this esteem and your officers.

I think it pity, since your men and officers have now arrived at the stage of good soldierly aptitude by the laborious work of constant drill, instruction, and subordination that the government now finds itself not in further need of you. This is in some measure, compensated by the fact that strict military schooling and experience has made a fine regiment for Kentucky and the nation should be glad again soon.

Very truly yours,

G. S. CALVERT, Brig. Gen. of Vols.

Lieut.-Col. 7th U. S. Inf. Headquarters First Separate Brigade, Second Corps, Camp Shipps, Anniston, Ala., Jan. 29, 1899.

Lieut. Col. David R. Murray, Fourth Kentucky Volunteer Infantry.

DEAR COLONEL:—As the order to muster out the Fourth Kentucky now terminates official relations, I take pleasure in expressing to you my appreciation as an officer and to your efforts to improve the discipline and efficiency of the regiment, especially at times when you have been in command of it. The muster out of the regiment is a matter of regret to me.

Very truly yours,

ROYAL T. FRANK, Brig. Gen. U. S. V. Commanding.

At his last visit to the white house Col. Colman was very cordially received by the president, who took occasion during the interview to give high praise to the Fourth Kentucky and to express his regret that it would be necessary for the government to disband its services.

"Your regiment happened to belong to a corps which was disbanded," said the president. "Had it belonged to the other corps you would have gone to Cuba."

President McKinley praised the Kentucky boys highly to Colonel Colman. "You and your regiment have done your duty. I have heard nothing but the very best of the regiment and you have done your whole duty," were the words the president said.

Questioned in regard to the probability of more regiments being sent to the Philippines, President McKinley said: "I will send no more volunteers to the Philippines."

Col. Colman returned yesterday from Washington.

MYSTERIOUS DISAPPEARANCE.

Hawesville Girl May Have Been Murdered.

The police of Evansville are looking for Miss Marietta Hayden who is believed to have been murdered or who may have committed suicide.

The young lady formerly lived at Hawesville and is known here. She made her home with the family of Mr. and Mrs. Sam Hendricks. A peculiarly distressing accident that resulted in the death of the infant child of Mr. and Mrs. Sam Hendricks occurred between Brandenburg and Weldon Sunday.

Sam and Alice Hendricks, with their families were driving from Brandenburg to Weldon where they were to take the train to the Indian Territory. As the day was cold and the trip a severe one the infant child of Mr. and Mrs. Sam Hendricks was wrapped tightly in a blanket.

When Weldon was reached the covering was removed and it was found that the child had smothered to death.

The babe was their first and only child and the grief of the mother, when she discovered her loss, was awful.

LETTERS FROM THE PEOPLE

They Make Suggestions That May Secure Good Roads.

The following letters were received at this office this week. They contain suggestions on the road question that may be of value.

HARDIN, JAN. 27.

Good roads and bad roads are being discussed in every road and corner in this section. This question is one of primary importance, and is agitating the minds of the taxpayers.

Mr. Editor, you gave an invitation to any who wanted to suggest a plan for the betterment of the roads to go through the columns of the News. While I am not capable of either part of the proposition, I will give you the suggestions that are about.

In the first place, we notice the magistrates are being censured and abused, even those who used the machine. Is this right? The court was constituted in leaving the tax, although it did not meet with the approbation of every one.

No one will deny that a graded road is the proper road, provided it is graded so as to drain the water from the center, instead of retaining it in the road, which is now the fault. It is claimed, however, that this will be remedied next year.

Some are complaining that the money has been unequally distributed, the work unfairly done, that some localities have been more highly favored than others. This is a knotty problem, is it not, and the court has the power to rescind this action if they think it proper to do so. I am opposed to taxation unless absolutely necessary. I pay opposed to a railroad tax. Somebody may say, "Your tax is a small amount; you have no need to be cutting up." That makes no difference. Those who pay should be protected, and the apportionment made in such a manner as would bring the best results.

The following are some of the suggestions that have been made:

That there be two road judges have jurisdiction.

That one overseer be given four times the amount of road he now has, and to allow him to let the work to those who wished to pay their tax by labor, while those who prefer to pay the money be allowed to do so. Then let the overseer use this money for the benefit of the road. The overseer should be liberally recompensed for his labor.

Another suggestion is that posts be planted along the sides of the road, and frame and road be built over it. Some think this a good plan.

The oldest inhabitants tell us that never have they seen as much rain, snow, and freezing as we have had this winter, nor has it begun so early. These things go to make up bad roads.

M. W. T.

BELLEVILLE, JAN. 27.

Harkins Smith in your last issue says that in the Center and Garfield neighbor hood the highways are bad. He says, however, that there is a marked difference between the roads that have been graded with machines and those that were not, the graded roads being better. Now, allow me to say that in this vicinity the roads that were graded with machines are very much worse at present, mud deeper and takes longer to dry out. If they were graded up again in the spring it may be of permanent good benefit. Yes, Mr. Editor, we think we

need rock crushers. They would be the thing, and we are in favor of working convicts, and grading the roads high and wide, then roll them, then metal them and secure them if only one hundred yards at a time. Take the worst places first.

Two Prominent Citizens.

BELLEVILLE, JAN. 27.

In answer to your call for suggestions in regard to roads will say, let each magisterial district purchase one or more rock crushers. Locate them in places convenient to good stone and bad roads. Let them be run by traction engines, which can be hired for \$2.50 to \$3.00 per day with driver. Farmers and others in the neighborhood can be employed to go to the stone and then spread it on the roads. Let the county employ an engineer and then let him have full charge of all rock work. Begin by macadamizing the worst places and then let the good work continue till we have good roads all over the county. I have for years been an advocate of working convicts on public roads and think we should require our next candidates for legislative to pledge themselves to this measure before they secure our votes. The trouble with our graded roads is that they were not thrown up high enough and then but few culverts were put in so that the dirt rains leveled them out and the water was left in the roads. Ditches should be at least three feet deep on each side and culverts put in at once to let water off.

SAVAGES' ORGIE

Was Held While They Ate The Crew of the "Manbare"

Vancouver, B. C., Jan. 27.—News from Sydney says that the crew of the "Manbare" were eaten by cannibals of N. W. Indians, after having saved themselves from the hurricane in December, off Cape Nelson. One of the twelve, Jesse Greene, escaped. He says the savages tortured the eleven others, beheaded them, put their bodies in a big kettle and had a great orgie and feast. He walked a day and a night to the coast, and was saved by a passing vessel. His hair has turned white.

La Grippe is again epidemic. Every precaution should be taken to avoid it. Its specific cure is One Minute Cough Cure. A. J. Shepard, Publisher, Agricultural Journal and Advertiser, Eden, Mo., says: "No one will be disappointed in using One Minute Cough Cure for La Grippe. Pleasant to take, quick to act—Short & Haynes."

One Minute Cough Cure, cures. That is what it was made for.

Political Pointers.

The Glasgow News declares unequivocally for Hardin for governor.

The Senate has unanimously agreed to take a vote on the peace treaty February 6 at 3 P. M.

Senator Stewart was re-elected in Nevada after a long struggle. Jack Chin didn't.

The democratic railroad commissioner's convention in the First District will be held at Paducah, March 8.

Gen. John R. Goddard has been honorably discharged from the volunteer army to date from February 20.

The Senate decided to consider the peace treaty behind closed doors. The question was warmly debated for three hours.

Capt. W. H. Lyons, formerly private secretary to Senator Deboe, has been appointed a clerk in the war department.

Hon. Wm. Geibel has resigned from the democratic State central committee, of which he was a member from the State at large.

Ex-Governor C. A. Culbertson was elected by acclamation by the Texas legislature as United States Senator to succeed Roger Q. Mills.

The National convention of manufacturers, at Cincinnati, adopted a resolution most seriously petitioning the Senate to ratify the treaty of peace with Spain.

Ex-P. M. General W. L. Wilson, denies the interview which made him say he voted for McKinley, asserting that he voted for Palmer and Buckner.

Paul Cooksey, of Bowling Green, has been appointed Senator Lindsey's secretary. James C. Edwards, of Russellville, who has held the place for several years, has resigned. He is in ill health, and will go to Florida.

Ex-Mayor Todd, of Louisville, has had Tolin T. Frible, chairman of the Clark county republican committee, indicted for criminal libel for making an affidavit to be used in the Evans-Turner contest, that he heard Todd say that he was working against Evans and that, through McKinley and the administration were prepared for Evans, he would be defeated.

Mr. S. A. Fackler, Editor of the Micanopy (Fla.) Hustler, with his wife and children, suffered terribly with La Grippe. The only remedy that helped them. It acted quickly. Thousands of others use this remedy as a specific for La Grippe, and are exhausting after effects—Short & Haynes.

At Haverhill.

The lines of the Cumberland Telephone Company have been completed from Owsenboro to Haverhill, and the exchange at the latter place is at Patterson's drug store. It is thought that the company will immediately push on to Cloverport, and that the line will be in operation here by the middle of March.

Coughed 25 Years.

Tuffered for 25 years with a cough, and spent hundreds of dollars with doctors and for medicine to no avail until I used Dr. Bell's Pine-Tar-Honey. This remedy makes weak lungs strong. It has saved my life.—J. B. Howell, Graniteburg, Ill.

PROPHET HICKS. Predicts Some Very Stormy Weather For February.

Sudden and Dangerous Overfalls The Last of The Month

A regular storm period the last days of January will be closing about February 1, hence storm conditions will be disappearing toward the Atlantic, and cold, fair weather will be following on from western and central sections. On and touching the 4th and 5th, barometer will fall, it will grow warmer, and rain and snow will visit most parts of the country. Moon will stand at extreme south point on the 5th causing drift of polar winds southward and producing sharp cold over much of the country behind the reactionary storms due about 10th and 15th.

During the Vulcan storm period commencing on the 9th moon will come nearest to us on the 8th, will be new, or in conjunction with the sun on the 10th, and on the celestial equator on the 11th. Look for change to very much warmer as this period progresses, with barometer falling very low in wide sections of the west, and about the 10th to 12th inclusive be prepared for general and heavy storms. Lightning and thunder, with wind and much rain will visit all regions southward, these conditions turning to snow north and west, all being followed by a general cold wave as storm conditions move out of the way to eastward. The great west should be on the alert for the cold wave early in the period. About the 14th to 16th the cold will moderate, and a general return to reactionary storm conditions may be expected—that is warmer weather, falling barometer and general tendency to renewed rain and snow will return. The chief facts to keep in mind in all the Venus disturbances this month are that very warm, springlike weather is apt to change very suddenly into blizzards and dangerous cold.

Another very marked storm period will be central on the 21st, with moon at her apogee on same date. This period extends from the 19th to 23rd, and will feel the force of Mercury, Venus and Earth's vernal equinox. Many severe disturbances and much extremely disagreeable weather may be counted on at this time and throughout the remainder of the month. During the Mercury period which is central on the 26th, and extends from the 21st to March, some of the heaviest sleet storms of the whole year may be expected. The great disturbances during the Mercury period will fall on and about the 21st to 23rd, and 29th to 28th. Many sections will be visited by sweeping wind and rain storms, while northern and northwestern regions will most likely feel some of this winter's worst blizzards. Another most probable source of loss and danger, against which we would warn the public, is the fact that heavy, Venus rains are likely to rush into valleys and water courses obstructed by ice, thereby causing sudden and dangerous breakers and floods. All who are so situated as to be especially exposed to such probable disasters, should be ready with every resource of precaution to save their effects and themselves in case of danger.

COUNTY JUDGES WARNED. Property Owners Must Sign Assessor's Schedules

State Auditor S. H. Stone is sending out notices to county judges, asking them not to certify assessors' fees until the schedules, properly signed by the property owners, are filed in the clerk's office and the county assessor's books have been made up. It has been discovered that in counties the assessors have not been filing out the schedules and having them signed by the owners of the property assessed, as required by law, and thus allowed thousands of dollars' worth of property to escape taxation.

HAD TO MOVE

Because The Well Could Not Be Divided in Halves.

Monday was the regular term of county court says the Haverhill Clarion. There were a number of matters before the court, the most important being the division of real estate among the heirs of Ike Lee, Sr., colored. The Lee case has a history both in and out of court, in which some of our readers are familiar. The property was a lot in the lower end of town on which there was a double house with chimney in the middle, owned and divided by Ike and Mack Lee. Mack died some time ago and his wife married again. The two families as thus constituted could not agree together, and it was decided to cut the house in two and each family move in half on the outer line of the lot, and divide the brick in the chimney. Everything went right until the tax collector came around and threatened to sell the whole lot for the tax due by one of the owners. Suit for partition was then filed and progressed until the parties discovered that the well could not be divided and moved.

BY POPULAR VOTE.

UNIVERSITY GRANT, son of General Grant, has been accused of spending large sums of money to secure his election to the United States Senate from California. W. A. Clark, of Montana, is accused of having used a large corruption fund to bribe his way into the United States Senate. Ugly stories of bribery in the legislatures of Delaware and Washington to secure senatorial elections are rampant. This condition of affairs will cause to make the United States Senate the "most august body in the world." Oh, my, instead of honor, he is attached to a seat in the Senate chamber. Senators should be elected by the people rather than by the legislatures.

A CURE FOR THE EVIL.

The following news item comes from Anderson, Ind.:
"Ella Fisher was granted a divorce in the Circuit Court of this county at 9:10 Saturday and proceeded to immediately establish a new lightning marriage record for Indiana. The decree was handed to her at 5:15. She immediately left the court. Four minutes later she had secured a license, and at 5:25 she and W. H. Knapp were husband and wife. Both are well, and the affair created a decided sensation, as it was not even surmised she intended to remarry."

Statisticians who have studied the divorce laws and their results in this country tell us that nineteen out of every twenty persons petitioning for divorce do so for the purpose of marrying some other man. While the Indiana legislature is looking for a remedy for the divorce evil, why not try absolute prohibition of marriage to any man or woman who has once been divorced, while the other party in the case is living?

Playtime, in Sunday's Courier. Did you ever think how few, how very few people are polite, and of how impolite we all are? Thoughtlessness, carelessness—and we don't begin in time with our children.

Prof. Samuel Childs Mitchell, son-in-law of the late Dr. John A. Broadbent, has sent a letter to each one of the trustees of the Southern Baptist Theological Seminary asking that Dr. Whitsett be retained as president of the Seminary despite his resignation. He makes a strong plea for "a man who dares to think." I wonder if Mr. Mitchell is taking the Recorder and reading Mr. Christian. Why, of course, Dr. Whitsett mustn't think and express too.

Many lovely women are never called upon to rule over home and children but they live so fair a life, so sweet a life, that the outside world never fails to recognize their influence. Having ceased to be girls in years they are still girls in heart and can sympathize in a gentle, tender way. Some of the dearest, loveliest friends are those who are living for others, and who have sought or cared for the world and its pleasures may my opponents completely but congenial all the same.

Bishop Potter says all women have gifts which may be useful and noble, exercised outside of the home, but here he adds, enters a danger of her stepping out of her natural sphere, for her sphere is wifehood, motherhood, sisterhood, the ministry of sympathy and love. All right and good for his excellency of a woman is called to the high estate of

inspiring, but one should be recognized as the song of our nation and it would be more creditable to our patriotism if all Americans knew it and could sing it without faltering and halting. All English men and women know the words and can sing "God Save the Queen" for they only have one national hymn and so with "Marseilles Hymn."

The picture of Mrs. Hetty Green in last Thursday's Louisville Post reads an amusing incident. When this same Mrs. Green, the richest woman in the world, dies these Grinnell boys will come in for a large share of her fortune. Sybilina Howland, my husband's great-aunt, left an immense amount to "Hetty" in trust for the Grinnell heirs living at the time of her death. Now for the incident. When my husband was in correspondence with a lawyer in New Bedford, Mass., about the will of Mrs. Howland, he replied to my inquiries and added, "Oh, she will live forever, for she is young, single and ugly as the very old." In looking at her picture and seeing her grasp her reticule of bonds, I was forced to exclaim, "Yes, verily!"

Hall Caine, author of "The Christian," one of the finest books I ever read, disapproves of our big American fortunes. But he covers up this fault by numerous compliments to our fair land, for example, he says, "No other nation pays so much attention to the education of its women, and in no other country does woman stand so high or play so serious a part." He says there is no country where the higher religious life is so felt and practiced, and that we are going

ROADS! ROADS! GOOD ROADS!

EDITOR BRECKENRIDGE NEWS.—In contributing this article the writer hopes that his suggestions may be of some practical benefit to the people of this and adjoining counties. The value of a good road, and the importance of keeping it in good condition in districts where the road traffic is large cannot well be overestimated. By way of comparison, it may be remarked that if seven roads are just sufficient to conduct a given traffic upon a given length of a very dry and smooth road, it will require ten horses to conduct the same traffic upon an equal length of the same road in a moist or very dirty condition—sixteen horses if the same be covered with ruts and mud—twenty-two horses if it be covered with deep ruts and thick mud.

An example of probably the best road ever constructed by the hand of man is that of the Appian Way, built by Appius Claudius twenty-two centuries ago, and leading from Rome to Capua, Italy, a distance of 125 miles. Sixty generations have passed away and yet a large part of said road has resisted the ravages of time and is in good condition today.

Friends of good roads, do you ever pause to think that by far the larger part of the traffic of the world is carried on our ordinary roads? All the railroads, steamships and sailing vessels of the world do not compare in volume of business to the country roads. In this article I shall endeavor to mention but three conditions essential to good roads.

First, GRADE.—In all cases where it is possible the grade should be regulated by "cuts" and "fills."

Second, FOUNDATION.—Solidity of foundation is essential. In spongy or marshy places no reasonable amount of covering with dirt will attain the desired end. Stone is to be had in superabundance, and such places should be filled with it and spread over with clay or napped limestone.

Third, DRAINAGE.—Now we come to a most essential element and one most neglected. No road can be positively good without drainage, and the drainage should be so complete, and so much below the plane of the road, that not even moisture can penetrate the road laterally.

Shape the road that water may not flow longitudinally with it, but may be thrown off directly into the ditches. In this way a road dries very quickly.

Never work a dirt road late in the fall of the year—better in the spring or early summer. The reason is obvious. Dirt must have time to pack.

Incidentally the writer will further say that a most important problem confronts us.

We are taxed for road purposes and how shall we expend the money to the best advantage? I happen the ladies of no one but the cause must be attributed to the lack of road knowledge. Have we not expended large amounts of money with but little resultant benefit to the traveling public?

On this question the writer would like to hear, through the BRECKENRIDGE NEWS, from practical men of our county, their views on the question of the expenditure of our money on the roads to attain the best results with the least outlay of money. Should we have a "County Engineer of Roads" or should the County Surveyor by virtue of his office, have charge of this department? But in this case we should have to take into consideration whether or not the County Surveyor is a practical road man. We know by experience that but few Road Overseers, in the past, have benefited the roads to any appreciable extent. Or would it be practicable to let contracts by the year to competent neighborhood men, under bond, to keep a specified length of road in good order, with plans and specifications furnished each contractor, and subdivide the road into sections of 3, 4, 5 or 6 miles, according to the wish or ability of the contractor to maintain it.

The argument is very forceful, that if a contractor's money depended on the strict fulfillment of his contract with the county, we would have good roads. Let us hear and learn.

ing, because of an impudence to put down quickly what she had said. Mine is often illegible from the same reason.

Mr. Enloe will no longer wield the pen editorially of the Dispatch. Mr. Stewart will, however, be his successor, but when there could be no wiser choice perhaps for he is fully acquainted with the in and out of Kentucky politics.

We have all known and read of good actresses, pure, true women, but we are all nevertheless, opposed to the life, and not one actress whose life or views we have read, wished one also loved to follow her footsteps. No girl should be so encouraged.

When we listen to any malicious concoction of the tale of a woman's weakness to remain silent we are reminded of Benjamin Franklin's great words, "we must account for every idle word so must we for every idle silence" for silence means consent to an assertion.

The British public is slowly realizing the tremendous commercial advantage of the United States. The pendulum is swinging this way and we are in for an era of prosperity. A panic is predicted for Wall street, but Europe is just a little upset over American enterprise.

"Is polite society polite" was really the best out taken from the New Orleans

without and motherhood, if not let her select a "sphere" and fill it nobly and with the ministry of "sympathy and love" a womanly woman will not forget her sacred position as a lady.

There is some danger of Wall street getting vainglorious, the deals there have been no unprecedented. We all know "Wall street is not America," but at the same time, the unparalleled amount of business being done shows that the country has entered upon an era of unexampled prosperity. Business is now expanding. Money is abundant (not personally speaking) beyond even the inflationists' hope, and every dollar of it is sound, if you please. Some folks would like to cripple the wave, but it is at high tide.

A great deal has been said, and is still being said, in regard to the ideas and views of Bishop Potter and Bishop Dudley on the subject of matrimony. Both men are pure, true Christian gentlemen, as well as eminent workers in the cause of good and right. What they may have said has been for a good purpose in some minds of benighted France and point of view of a different kind in their place is what all Christians want. No one could believe either minister would condone an ill will, they have both labored too long in the vineyard, and have done too much for the elevation and for the uplifting of the human family.

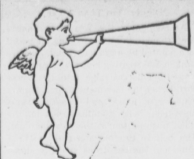

While we as a nation are unusually patriotic and rather uplifted over recent acquisitions into whose borders we will introduce our patriotic airs let us not have three national songs—but one—"America," "The Star Spangled Banner" and "The Red, White and Blue" are all

back to early Christian ideas. He loves our men because of their chivalrous treatment of women. He loves our women because of their frank, unconventional manner and unobtrusive purity, along with other attributes. In short, he is evidently "struck" on us, our brusque speech, and our freedom of manner. Hall Caine's reception in America upon both occasions was most cordial. The dramatization of "The Christian" has made a "hit," hence this overflow of good will.

What Shall Be Done
FOR THE DELICATE GIRL.
You have tried iron and other tonics. But she keeps pale and thin. Her sallow complexion worries you. Perhaps she has a little hacking cough also. Her head aches; and she cannot study. Give her

Scott's Emulsion
The oil will feed her wasting body; the glycerine will soothe her cough, and the hypophosphites will give new power and vigor to her nerves and brain. Never say you "cannot take cod-liver oil" until you have tried Scott's Emulsion. You will be obliged to change your opinion after a time. Children especially become very fond of it; and infants do not know when it is added to their food.

Let not the readers of the Ladies' Home Journal grow alarmed. I know not a man or woman, boy or girl who is being hurt by overappreciation to the study of books. I suspect the trouble with those whom Mrs. Lew Wallace knows is more from luxurious attire, or such like, than as she complains. I honor all who are in the pursuit of knowledge.

Prof. W. A. Stith and Miss Florence Cain closed their school Friday afternoon. They have taught a term, which, as one of the speakers of the afternoon said, "compared favorably with any that has ever been taught here." The closing exercises consisting of recitations, select reading, singing, and the reading of a copy of the Bewleyville Hustler entertained a nice crowd for a couple of hours, and then the teachers passed around a generous treat. Messrs. Charles and Henry Drury, W. H. Cain, and the Professor gave pleasant talks, and then came the word, "Good-bye." The decoration of the house with flags and the singing of national airs by the whole school showed that patriotism had not been neglected, and for that we give them praise.

The readers of this paper will be pleased to learn that there is at least one dread-disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietor has so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for lists of testimonials.

To Whom It May Concern.

Strong words of indorsement for Peruna, and for the manufacturers of Peruna, from prominent officials of its home city.

Hon. Samuel L. Black, Mayor of Columbus, O., whose opinion adjoins this paragraph, writes the following letter:
EXECUTIVE DEPT., CITY OF COLUMBUS.
To whom it may concern:

I can most cheerfully recommend Peruna as one of the very greatest possible benefits in cases of catarrh and other diseases of the mucous membrane. This remedy has established itself in the minds of the people as one of the greatest possible worth and genuineness. I have known Dr. Hartman for a number of years, and am pleased to say that he is one of the leading citizens of this city, a man of the very highest standing and character in the community.

Respectfully, SAMUEL L. BLACK.
Col. Arthur L. Hamilton, commanding officer of the Seventeenth Infantry Ohio National Guard, whose residence is at 309 West First Avenue, Columbus, O., bears witness to the efficacy of Peruna. Here is Colonel Hamilton's letter and picture.

COLUMBUS, O., May 18, 1897.
Dr. S. B. Hartman,
DEAR SIR:—Beside having the merits of Peruna so fully demonstrated in my family, I have a number of friends who have taken it for catarrh and stomach trouble, and all unite in praising it. As a remedy for summer and winter catarrh I can fully recommend it.

From the Hon. Samuel J. Swartz, Police Judge, Columbus, O.
STATE OF OHIO,
SUPREME COURT LAW LIBRARY,
COLUMBUS, O., Nov. 12, 1897.
Peruna Medicine Co., Columbus, O.

Gentlemen:—The result of using Peruna has been so gratifying to me that I cannot but congratulate you on the success of your remedy. Your high standing in the business community, and expect a meritorious article only from your establishment, but its real worth is best demonstrated by its use.

Respectfully, SAMUEL J. SWARTZ.

STEPHENSPOET

Ask your grocer for Sea Foam flour. Master Robert, Willie and Ester Vaughn are on the sick list.

Miss Kate and Mary Allen and Mr. Geo. Frymire, of Channah, were in town Saturday.

R. A. Beshar, of Gay City, Ind., was in town Sunday to visit his sister, Mrs. R. J. Napper.

Misses Bertha Pettit, Kate Crawford, Messrs. Forest Blain, Grover Jarrett and Kyle Adkinson attended church at Home last Sunday.

A school entertainment was given Saturday night combined with a festive by the pupils of the school of color, it being the close of school.

Misses Katie and Bertie Bruner and Miss Hattie Warfield, of Ekron, passed through town Saturday enroute to Channah to visit the Misses Allen and Mrs. Frymire.

Songs for Sunday school and church, are practiced every Wednesday night after prayermeeting at Baptist church, and all interested in these services, are asked to be present.

A seven "instrumental" serenading crowd is now the main attraction in the town, waiting out the ever so stirring strains of Mr. Johnson, etc., and other good old religious hymns.

The presenting of "Pansies" by the "Louisville Dramatic Club" brings to us past days and pleasures, when Mrs. R. A. Beshar gave a two nights entertainment of the same and all that's left of us here as represented there, is "Buttercup," Ellie Pope Helm (now Mrs. R. W. Vaughn), the Captain, Hattie Hawkins, Cousin Phoebe, your humble writer.

And so the Rev. Sam Jones is in trouble over a bit of plain talk. Well if Rev. Jones does say some hard things, he scarcely ever misses the truth, and if good can be accomplished in even this rough way, let him take his way and perhaps with our more modest divines in their meekness with a bit of pliancy mixed in, two fold good can be accomplished, at least it is worth the trying.

"Once upon a time" a good lady was heard to remark one Sunday afternoon she called to see a sick friend, and was entertained by the backslapping and feather pulling of the entire community and felt she was lucky to be the one present, we think it would have been more beneficial to let her mind run on the weather or some other as common subject, rather than to be so entertained, and placed in a helpless state. Just for instance now, when a brother who has reached the top round of time and is fast going down the other side, in leaving public services say such uncalculated and ridiculous things as to make the young folks laugh, let him give to the cause he is so concerned as the effect was only natural, and let not those who have had their day of laughing and all sorts of other things, look with disdain at they who are now mortifying, for young people will laugh, when no longer concerned to the house of God is thought of.

WEST VIEW.

Henry Roberts is on the sick list. Ask your grocer for Old Glory flour.

The wife of B. S. Ames is improving. Frank Skillman's school closed Friday.

The health of the community is good. Ask your grocer for Sea Foam flour.

Joe Gray, of Harrell, was here Saturday.

Ben McCoy, of Knoxville, passed here Saturday.

Saturday was a fine day for loading and we took advantage.

Mr. Harper and family think of moving to Illinois soon.

Some of the bustling farmers are done burning plants here.

Daniel Ames, of Harrell, was here prospecting Saturday.

Quite a number in the vicinity had business at Harrell last week.

Mr. Ruby, of Cairo, Henderson county was here last week looking for a farm.

Frank Glanbeck, of McNamee, passed here Thursday on his way to Harrellburg.

Prof. D. S. Roberts was in our midst Tuesday in the interest of the B. M. College.

Yogi Goodman went to the entertainment at the Mattingly's school home Saturday.

The argumentative intellect of West View resembles the Spaniards. They shoot whether it hits or not.

G. H. Hall was here Friday. Mr. Hall is preparing to hunt a home in the far west. May success be your lot Mr. Hall.

Misses Cora and Emma Matthews accompanied by Messrs. W. D. Smith and Lisa Miner called on the Misses Hall Saturday night.

The Republicans here seem to be in perfect harmony with president McKinley except S. M. Henninger, who thinks the president ought to have made him his private secretary.

Mr. Lamb, of Nebraska, is visiting in this vicinity. Mr. Lamb advises the young men to go west. He has been in the west for 20 years. He says wages are high and work plentiful. Wheat worth 50 cents a bushel and corn 35 cents a bushel.

FALLS OF ROUGH.

Miss Mary Peyton is away visiting. Mrs. Davison was a guest of Mrs. Stone Friday.

Born to the wife of Mr. Boazth a girl, Jan. 24.

Mr. David Chambliss is quite ill with the grippe.

Mr. Leslie Brock went to Short Creek Saturday.

Mrs. Reid has returned to her home at West Point.

Mrs. Jennie Morgan was a guest of her husband at the depot Monday.

Mr. and Mrs. Elsie Fonteneau and baby were guests of their sister Sunday.

Mrs. Stone was the guest of Mrs. Chambliss and Mrs. Mercer Thursday.

Miss Jennie Morgan has a pretty visitor from the city, but I failed to catch her name.

Charlie Stone came down from Louisville and spent a few hours at home Friday.

Mr. Sam Morgan who has been quite ill, is able to attend to his duties at the depot again.

Mr. Editor, please excuse haste and lack of interesting items I shall try to better that one.

Mother earth and her innumerable family were decorated with soft and beautiful fields of snow, last week.

A big projected meeting is in progress at Union Chapel, and a great deal of good is being accomplished. I am told the public services say such uncalculated and ridiculous things as to make the young folks laugh, let him give to the cause he is so concerned as the effect was only natural, and let not those who have had their day of laughing and all sorts of other things, look with disdain at they who are now mortifying, for young people will laugh, when no longer concerned to the house of God is thought of.

Charles Stone has resigned his position in Chicago, and accepted one with the L. H. & L. Co. company in the train service on the main line.

Mr. Robert Chambliss is finishing up the business phone from here to Glendene. Mr. Chambliss is very enthusiastic in promoting the telephone interest.

Our school closed Friday. This is Mr. Warnie Macy's third term at this place, and every pupil voted for him as their teacher for another term. Everyone likes Warnie's progress, way of teaching, and we hope he will accept our school next fall.

Brother C. M. Buchanan baptized twelve happy converts into the membership of Lost Run church, Christmas day, the result of a three weeks series of meetings at that place. Seven more were added to the church.

For several years the church had been at a low ebb, but by the earnest work of the pastor the church is very much revived, and seems like Lost Run of olden times.

Mr. Billie Scott, wife and daughter, Mrs. James Bush, of Allen, Collins county, Texas, who have been visiting friends and relatives in Kentucky for the past month, started home January 17. This was their first visit here since they moved to the Lone Star State, seventeen years ago. They spent Xmas and both their birthdays in Kentucky. "Aunt Mat" was sixty-two December 27, and "Uncle Billie" was sixty-three January

in this section, has sold his tobacco crop a good figure. He told me that he had about 30,000 lbs.

Mr. Editor, we heard a man the other day say that he had not taken the New York two years, but found that he could not without it, as he subscribed again.

Our school closed last Saturday. About 150 people were present, and all seemed to enjoy themselves very much. We are indebted to Messrs. Kessie and Emma Rhodes and Miss Julia Rhodes, of McNamee, and the Messrs. Mattingly for their able assistance in the closing exercises.

This is our last month's report. The pupils names are given in their order: Alvin Brown, Richard Mattingly, Ann West, Minnie Brown, Mary Mattingly, Olenia West, Helen West, Jennie Brown, Frank Brown, Leo Huffer, Jennie Mattingly, Yen Lymer, Bernard Mattingly, Martin Mattingly. Others did well but owing to a few days absence their names are not given.

BRANDENBURG.

Fifth Sunday and no preaching. The young folks had a fine time skating last Sunday.

Came to the Normal library, Friday night, February 3.

Mrs. S. P. Woolfolk spent Sunday with Mrs. Charles Capewick.

Miss Bettie Clarkson has taken charge of the telephone exchange.

Miss Hilda Mattingly, one of the ex-students of the school of Miss Julia Powell.

Miss Virginia Rhodes was out Saturday, as blossoming as a rose after her indisposition.

Dick Wale, a colored man who stood well in the community, died last Thursday, after a long illness, and was buried from the colored Baptist church.

Misses Lula and Minnie Bland, and James Bondurant and Henry Cowley attended the party last Saturday night at Mr. Charles Anderson's, near Guston.

C. Haskins, from Grinnell, Ill., will settle in Cloverport. He hails from a thriving little city named for his husband's name. The town in France for the original family is spelled Grenelle.

Brother Littlefield, assisted by Brother Bingham, of Hardinburg, will begin a series of protracted meetings at the M. E. church on the fourth Sunday in February.

Mr. Editor, you made me do Adeline Patti a great injustice. She is now a wife for the third time, instead of the second, and yet her traveling case was ornamented with "true love's knots". Truly, there must be many loves.

My old friend and schoolmate, Annie Scott, of Olenia, is to be congratulated upon the success of her children. Her son has been commissioned first lieutenant in the Fourth Regiment Kentucky Volunteers, and her daughter, Miss Clara, has been elected secretary of the Owensboro board of underwriters.

So many of my pupils ask, "What is classical music?" and many other people the question. The answer is a term applied in music, as in art and literature, to such works as have held their place in general estimation for a long time. The town in France for the original family is spelled Grenelle.

There were nineteen examined last Thursday, all of whom, with one exception, will receive diplomas. Six of the applicants were pupils of Brandenburg Normal. Miss Ethel King will receive first prize, and I don't remember the others ranged. My niece, Miss Ruth Phillips, fifteen, is happy over the idea of having a framed asleepskin in the common school branches. Miss Mabel Sackett, my music pupil, will also be recipient of an honor.

Misses Brown and Handley are as proud as their pupils, while Mr. Ashcraft is all smiles. Now for the county commencement.

GLENDEANE.

No small pot at Glendene. Ask your grocer for Sea Foam flour.

Mrs. Deeween was visiting in Grayson county last week.

Tom Owen is expected here from Owensboro this week.

Lewis Kincheloe was the guest of Miss Mary Moorman Sunday.

John Deane was sick last week but is about able to be out again.

Paul Dempster has returned to Louisville to continue his studies in Medical College.

Dick Jones and Jim Powell, who have been in Illinois for several months, returned last week.

Or Miller and his wife returned home from Kirk Sunday and were guests at Squire Moorman's.

Public term of school closes Tuesday of this week. Miss Moorman doesn't continue her department.

Miss Julia Chambliss, after a pleasant visit to friends here, returned to her home at Haynesville Saturday.

Frank Duncan and family left Sunday morning for Texas. Mr. Duncan had run a corn mill here for some time.

Sidney Owen closed a successful term of school near West View last Saturday. Sidney will enter school somewhere in a short time.

Joe Lawrence has taken the contract for cutting a thorned fence on a tract of John Deane's land lying next to Glendene. He has begun the work.

Walter Moorman will the medal for highest average at graduation examination. Elliott Moorman was a close competitor for the honor of the class.

Sam Haycraft, a successful farmer near here, raised 1,000 lbs. of tobacco on a

measured acre of land last year. Like to mention some one who made a larger yield.

Nearly all the young people from this neighborhood attended the social at Col. Green's charming home last Friday night. An excellent time is the universal report.

"People will talk" and promoters of telephone lines are glad of it. We are now being connected with Falls of Rough, Fordville and the world generally.

The Rev. Hodge, missionary student, will visit here at the close of this week and preach at Uplift Hall next Sunday morning. Eloquent and instructive. Hear him.
